

# 2012 HRT Workdays

## What is HRT?

*The Habitat Restoration Team (HRT) is an opportunity like none other; open to anyone that wishes to be truly involved with environmental stewardship at the Cosumnes River Preserve.*

HRT assists Preserve staff with focused conservation projects that allow members to experience more of the Preserve and contribute to its success. HRT members may take advantage of specialized trainings, workshops, and events that are designed to help volunteers become more effective environmental stewards.

HRT is an opportunity to gain practical work experience in restoration and land management while helping to advance the Preserve's goals to provide sustainable habitats for Central Valley plants and wildlife.

### Steps to join the HRT

1. Participate in the Public Restoration Days to become familiar with the Preserve
2. Be 16 years of age or older
3. Contact the Preserve's Site Coordinator to express interest in joining the team (e-mail to [acabrera@tnc.org](mailto:acabrera@tnc.org) or call (916) 691-1618)
4. Commit to serve in at least 5 HRT workdays during the year

Schedule and more information on reverse side
