

Come Lend A Hand

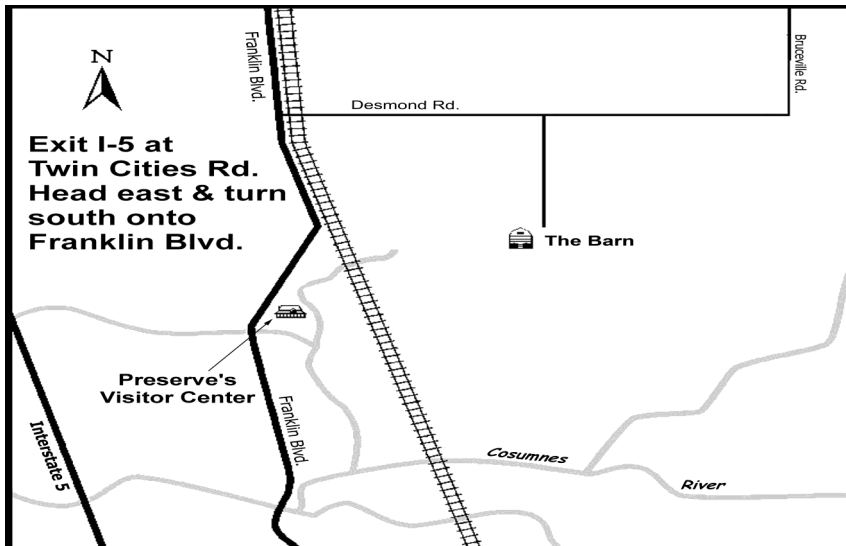

The Habitat Restoration Team (HRT) is an opportunity like no other; open to anyone that wishes to be truly involved with environmental stewardship at the Cosumnes River Preserve.

HRT assists Preserve staff with focused conservation projects that allow members to experience more of the Preserve and contribute to its success. HRT members may take advantage of specialized trainings, workshops, and events that are designed to help volunteers become more effective environmental stewards.

HRT is an opportunity to gain practical work experience.

Directions to The Barn

- Take I-5 to the Twin Cities Road Exit & go East.
