

# Cosumnes River Preserve Activity Booklet Answers

## Habitat Match

The Cosumnes River Preserve is home to many types of plants and wildlife. Within the Preserve there are different kinds of habitats. A habitat is the natural home or environment of an animal, plant, or other organism.

Below are a few common habitats at the Preserve. Draw a line from the name of the habitat to the correct picture.

**Riparian Forest** 

**Wetland Pond** 

**Savanna Grassland** 

## Name That Track!

Animal tracks are the footprints of animals that live or travel through a certain area. Though you may not see the animal, you can use your detective skills to find clues they leave behind -- like tracks!

Draw a line from each animal to its matching tracks.

  **Great Egret**

  **Deer**

  **Duck**

  **Raccoon**

  **Rabbit**

## Miwok Word Search

The original inhabitants of the land surrounding the Cosumnes River are the Plains Miwok. The Miwok people utilize many plants as food, medicine, and to build their homes. Some examples are the use of willow branches for baskets, tule for homes, and acorn as a staple in their diet.
